

## **RHODE ISLAND NOTICE FORM**

Notice of Psychologists' Policies and Practices to Protect the Privacy of Your Health Information

THIS NOTICE DESCRIBES HOW PSYCHOLOGICAL AND MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

### **I. Uses and Disclosures for Treatment, Payment, and Health Care Operations**

We may use or disclose your protected health information (PHI), for treatment, payment, and health care operations purposes with your consent. To help clarify these terms, here are some definitions:

“PHI” refers to information in your health record that could identify you.

“Treatment, Payment and Health Care Operations”

– Treatment is when we provide, coordinate or manage your health care and other services related to your health care. An example of treatment would be when we consult with another health care provider, such as your family physician or another psychologist.

– Payment is when we obtain reimbursement for your healthcare. Examples of payment are when we disclose your PHI to your health insurer to obtain reimbursement for your health care or to determine eligibility or coverage.

– Health Care Operations are activities that relate to the performance and operation of our practice. Examples of health care operations are quality assessment and improvement activities, business-related matters such as audits and administrative services, and case management and care coordination.

“Use” applies only to activities within our practice such as sharing, employing, applying, utilizing, examining, and analyzing information that identifies you.

“Disclosure” applies to activities outside of our practice, such as releasing, transferring, or providing access to information about you to other parties.

## **II. Uses and Disclosures Requiring Authorization**

We may use or disclose PHI for purposes outside of treatment, payment, and health care operations when your appropriate authorization is obtained. An “authorization” is written permission above and beyond the general consent that permits only specific disclosures. In those instances when we are asked for information for purposes outside of treatment, payment and health care operations, we will obtain an authorization from you before releasing this information. We will also need to obtain an authorization before releasing your psychotherapy notes. “Psychotherapy notes” are notes we have made about our conversation during a private, group, joint, or family counseling session, which we have kept separate from the rest of your medical record. These notes are given a greater degree of protection than PHI.

You may revoke all such authorizations (of PHI or psychotherapy notes) at any time, provided each revocation is in writing. You may not revoke an authorization to the extent that (1) we have relied on that authorization; or (2) if the authorization was obtained as a condition of obtaining insurance coverage, and the law provides the insurer the right to contest the claim under the policy.

## **III. Uses and Disclosures with Neither Consent nor Authorization**

We may use or disclose PHI without your consent or authorization in the following circumstances:

**Child Abuse:** If we have reasonable cause to know or suspect that any child has been abused or neglected, as defined below, or is a victim of sexual abuse by another child, We must, within 24 hours, transfer that information to the Rhode Island Department of Child, Youth and Families, or its agent.

Child abuse and/or neglect is defined as a child whose physical or mental health or welfare is harmed, or threatened with harm when his or her parent or other person responsible for his or her welfare:

1. Inflicts, or allows to be inflicted physical or mental injury;
2. Creates or allows to be created a substantial risk of physical or mental injury;
3. Commits or allows to be committed an act of sexual abuse, sexual assault against, or exploitation of the child;
4. Fails to supply the child with adequate food, clothing, shelter or medical care;
5. Fails to provide the child with a minimum degree of care or proper supervision or guardianship because of his or her unwillingness or inability to do so; and abandons or deserts the child.

**Health Oversight:** If a complaint is filed against me with the Rhode Island Board of Psychology, the Administrator of Professional Regulation (of the Division of Health) has the authority to subpoena confidential mental health information from me relevant to that complaint.

**Judicial or administrative proceedings:** If you are involved in a court proceeding and a request is made for information about the professional services that we provided to you and the records thereof, such information is privileged under state law, and we will not release this information without: 1) written authorization by you or your legal representative; or 2) a subpoena of which you have received official notification and you have failed to inform me that you are opposing the subpoena; or

3) a court order. The privilege does not apply when you are being evaluated for a third party or where the evaluation is court ordered. You will be informed in advance if this is the case.

**Serious Threat to Health or Safety:** We may release your confidential health care information to appropriate law enforcement personnel, or to a person if we believe that person or their family to be in danger from you.

**Workers' Compensation:** If you file a worker's compensation claim, we must release your relevant mental health care information for the proceedings.

**Right to Inspect and Copy –** You have the right to inspect or obtain a copy (or both) of PHI in our mental health and billing records used to make decisions about you for as long as the PHI is maintained in the record.
